INFORMATION TECHNOLOGY – ACCEPTABLE USE AGREEMENT

While the Internet is a wonderful resource from which staff and students are able to access information from around the world, its vast nature means that it is not possible to control all available material and a user may discover controversial or undesirable information whilst browsing the World Wide Web.

St Paul's College firmly believes that obtaining valuable information available on the internet far outweighs the possibility that users may come across material that is not consistent with the desired learning outcomes sought at St Paul's and to this end, the College has in place security filters to minimise the likelihood of happening upon inappropriate material.

ACCESS TO THE INTERNET IS A PRIVILEGE – NOT A RIGHT.

It is made available only so long as the users abide by this. St Paul's College will ensure that adequate supervision is provided when students are accessing the Internet at school. However, inappropriate use will lead to suspension of user privileges.

By signing this Acceptable Use Agreement form, St Paul's College Internet users agree to abide by the terms and conditions of use set down by the College as outlined below.

TERMS AND CONDITIONS OF USE

- The Internet at St Paul's College is to be used for educational and/or research purposes only.
- Illegal activities are strictly forbidden, including messages relating to, or in support of illegal activities. Swearing, vulgar language and other inappropriate language are not permitted.
- Hate mail, harassment, discriminatory remarks and other anti-social behaviour are prohibited on the network. Therefore, any messages should not contain profanity, obscene comments, sexually explicit material and expressions of bigotry or hate.

- Students may not reveal personal addresses, phone numbers or passwords of students, teachers, administrators or other staff of St Paul's College, including their own.
- Student subscriptions to electronic mailing lists are not allowed. Note that electronic mail and Internet use are not guaranteed to be private. All Internet use can be monitored and automatically logged.
- Vandalism will result in cancellation of privileges as well as warrant other sanctions cited in the College rules. Vandalism is defined as any malicious attempt to harm, modify or destroy computer hardware, data of another user, the Internet, or any associated networks. This includes, but is not limited to, the uploading or creation of computer viruses.
- Students may not download files or attachments or install any unauthorised software except by prior arrangement with the College's ICT Manager.
- Information (including text, graphics, video, audio etc.) from Internet sources used in student assignments and reports should be cited in the same way as references to printed materials.

CELLPHONE USE

- St Paul's College students are allowed to bring cell phones to the school. However students are not permitted to use cell phones during class or between classes. Failure to comply with this could result in confiscation of the phone until the end of the day. There are device-free times during the day.
- Students are not to use cell phones in an irresponsible manner.
